Praxis Test:

The cooler – half way filled with ice cubes and tested at an ambient temperature of 25°C (day and night) -leaves the cooler cold!

Only after 3 days the ice cubes were melted in 25-and 30 Lire coolers. In the larger coolers (45 L to 66 L) the ice cubes were melted even only after 4 days and more!

Ideal for outdoor activities like camping, picnic or boat.

Tested cooling time including 2 x ZORN 440g ICE Akku.

Volume Rating: Passice Coolers: gross volume according to DIN EN 12546-2.
